

Maggie Smith Kuhn | *live event painter*

Live event painting is a specialty service where a fine artist paints the scene around them as the scene is happening. Maggie Smith Kuhn paints your wedding reception/event while guests watch her work. The painting usually includes the bride and groom, the reception room and details, and renderings of important guests. Before the end of the night, Maggie will finish your painting and display it to you and your guests. You get to take the completed painting home on your wedding night, making it your first married heirloom in your new life together.
